FYI. Don't yet know if this can be shared outside EPA, awaiting a response to that question. So internal only for now.

**Subject:** RE: Watershed Planning Meeting -- summary of data available via the Water Quality Portal

Dwane Young prepared the attached document, which summarizes data available in the Water Quality Portal (<http://waterqualitydata.us>) for the four watersheds related to the Gold King mine spill.

Almost of the data are pre-spill but there are some USGS post-spill observations.

Please let me or Dwane know if you have any questions. Thank you,

Tom Wall, Director

Assessment and Watershed Protection Division

Office of Wetlands, Oceans and Watersheds
